NEWS LETTER 08062018

ATEX Certification for Pneumatic Pump Line

Sidewinder Pumps now offers ATEX Certification for the entire Sidewinder pneumatic pump line. Available for applications domestic or international that require ATEX certified equipment.

Sidewinder ATEX certified pneumatic metering pumps are identified by ATEX Directive 2014/34/EU tagging. A certified EC Declaration of Conformity accompanies each pump.

The ATEX pumps utilize Sidewinder standard plunger, timer control, and packing arrangements. Sidewinder ATEX models are identified by an "A" in front of the model number.

The ATEX pneumatic pumps have the same operating specifications as their standard counterparts.

Any questions please contact us at (337) 235-9838 or info@sidewinderpumps.com .

Regards,

Guy M. Chachere
General Manager
